

BOARD & BATTEN

WHY CHOOSE METAL BOARD & BATTEN?

- ✓ Cut to Custom Lengths, Reduce Wastes on Job-Sites
- ✓ Longevity! More durable than vinyl and less maintenance than wood.
- ✓ No Exposed Fasteners.
- ✓ Optional embossed wood texture.
- ✓ Available in 29 & 26 GA.

ABOUT US

Graber Post has been a leading material producer and supplier for over 45 years. When you chose GPB you are choosing quality. We start with only the best raw materials and is handled with care the entire production process. We strive with providing the best customer service. We want to make each and every order worry and hassle free.

MAINTENANCE

Unlike wood this metal profile is easy to maintain. Wood requires yearly maintenance to keep its attractive appearance. Our panel requires no painting, sealing, or power-washing! Our panel system is seamless. Traditional board and batten is patched together that potentially could welcome insects, moisture, & dirt.

DELIVERY

We have our own delivery fleet that ensures timely delivery for each and every load. With over 50 vehicles ranging from large semi tractor/trailers to ton trucks, no delivery is too big. Our fleet includes piggy-back forklifts that make job-site loads a breeze to unload.

SAVINGS

Graber Post buys their raw materials directly from mills, thus cutting out the middle man. With doing so we are able to pass the savings on to the end user! We also roll-form this panel with state of the art equipment by experienced employees. Call or visit us online to see how we can help your business grow.
